Subject: eVoter

Mr Muller,

I am in receipt of your letter regarding eVoter. In the letter you state "If you see anything on our site that does not look correct, please contact me directly."

Just be clear, we have no intention of looking at your site and in any way doing quality control for the information that you disseminate to Champaign County voters. Voters have an unbiased mechanism to view their ballot at our website. They can get accurate information there. If you were inclined to assist Champaign County voters, you could point them to our website. Instead, you're inclined to make money. That is well and good, but I am concerned about any third party effort to try to provide this information to voters. While I doubt there is any legal obligation on your part to get your information correct, I hope you'll at least feel a moral obligation.

Mark Shelden
Champaign County Clerk
