Champaign Illinois, and under the management and control of the Board of Education of
City
School District # 0004, Champaign County, was surveyed by me on April 7, 2006.

- All of the urgent or necessary work as indicated on the attached Form 35-48 is necessary to abate the violations of applicable code requirements and should result in effecting compliance with said requirements within prescribed timelines.
- All other work recommended in the attached Form 35-48, though not required to abate violations of applicable requirements of the Health/Life Safety Code for Public Schools, is recommended for energy conservation, handicapped accessibility, school security, and other repair purposes provided in Section 17-2.11 of the School Code.

The certified estimated cost figures were prepared by me and to the best of my knowledge are true and accurate estimates of the costs to execute the work as specified.
